

## Career Opportunities

### Technical Program Manager

**Fibertek has an immediate career opportunity available for a Technical Program Manager with direct laser, electro-optics and electronics experience at its R&D location in Herndon, Virginia**

The successful candidate will thrive in a fast-paced, small-company environment and have experience leading solid state lasers, advanced lidar systems, and space-based instruments efforts. The candidate should be able to perform technical system engineering functions as well as manage a group of motivated engineers and scientists to meet program milestones.

Fibertek is an advanced technology driven company that develops cutting edge technology with the end goal of translating into ruggedized, fielded customer solutions for a wide range of environments including space, airborne, vehicle, etc. Fibertek has been in existence for over 30 years serving NASA, DoD and aerospace markets.

#### Job Overview:

The Technical Program Manager will lead a group highly specialized experts to develop new laser transmitter subsystems, lidar systems, and space-based communications systems. The work load will at times include multiple concurrent projects, with a mix of small, quick-turn projects and larger, longer-term projects.

#### General Duties:

- Interface with the customer and develop system design concepts that meet program objectives
- Establish system key performance parameters; and the requirements flow-down to subsystems
- Lead engineering and manufacturing teams through the end-to-end development of active electro-optic systems
- Assign tasks to program team members and set/communicate program priorities and goals
- Keep senior management apprised of status/issues (technical, programmatic, workforce)

#### Qualifications:

- BS engineering, MS engineering preferred
- 5 to 10 years of design, build and test experience
- Minimum of 5 years program management experience
- Systems engineering experience
- Strong communication and documentation skills
- Excellent customer interfacing skills
- US citizenship required
